

## THE EXPERIENCE

Our Virtual AGM (Annual General Meeting) package provides customized full service support for you and your delegates. We'll take care of every technical aspect of your virtual experience, so that your delegates will simply need to log in. The EPIQLive Virtual AGM Solution features live HD webcasting with secure, authenticated voting and delegate online participation.

- Presenter training and rehearsal with an EPIQLive Concierge
- AGM webcast includes EPIQLive Concierge, EPIQLive Producer, and a voting operator
- Custom branded registration and login page with your own unique URL
- Integration of real-time presentations, keynote speeches and panel discussions
- Safe, secure webcast login for your audience without the need to download or install software
- Fully customized voting, polling and surveys preprogrammed for you by our producer
- Low latency (3 to 8 seconds) and real time (under 0.5 seconds) streaming options to ensure timely audience voting synchronization
- Simultaneous interpretation, captioning and sign language available
- Archived recordings for post-event playback

### Authenticated Voting

- Votes, motions, resolutions, polls and surveys are fully customizable
- Motions and amendments can be forwarded from the floor in real time
- Options include "Mover" and "Second"
- Proxy and weighted voting
- Countdown clock on all votes
- Official audited voting report is stored securely
